

# ICONIC Architecture and Design

Providing Branding Services

ICONIC architecture | design

reverberating in space and time

Pull up  
a Chair  
and Relax...

The background of the slide features a series of concentric, slightly irregular circles in shades of light gray and white, creating a ripple effect. On the far left, there is a vertical bar composed of two segments: a bright orange segment at the top and a gray segment below it.

**We are  
here for you**

Iconic Architecture and Design is a consortium of architects that offers architectural and design services for a broad range of program types. With years of experience in the design field, we leverage all resources to provide the best and most cost-efficient results for your project.

**Reason  
why...**

Every design decision has a ripple effect on the final outcome of the project. Research shows that certain design features are more efficient than others at affecting important issues. Branding gives your business a professional appearance to customers and other professionals. Iconic Architecture and Design knows when design will benefit or distract from a project's end goal

In the end, these results determine the way a business is perceived by the affected population, ultimately impacting its financial bottom line.

## Meet the Designer

### **KAREN SHAKMAN | AIA | LEED AP**

Karen is the principal of Iconic Architecture and Design. Licensed to practice Architecture in both Brazil and the United States, she is an architectural award-winner with a diverse background in Architecture, Industrial Design and Evidence/Research-Based protocols.

Karen is a LEED accredited professional endorsed by the United States Green Build Council and holds a Master Degree of Science in Healthcare and Healing Environments from Arizona State University.

Her experience ranges from corporate, retail and residential to institutional and healthcare related projects. She commits to assemble project delivery teams that will provide the a thinking tank of experts custom tailored to the clients' needs, budget and schedule.

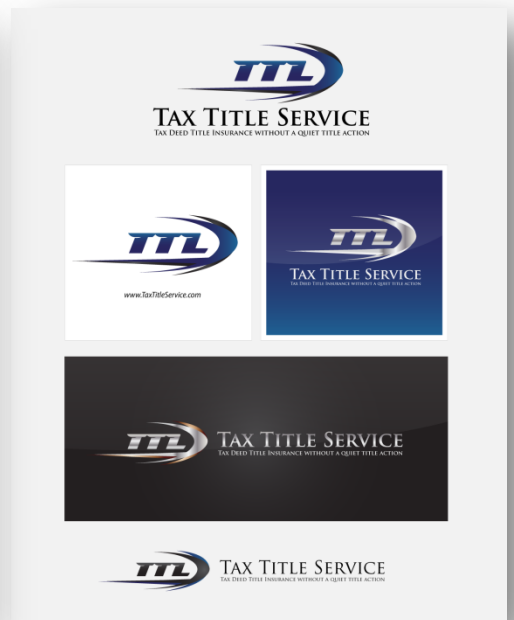

## Some Of Our Clients

- 
- A large, faint background image showing the silhouettes of four stylized human figures holding hands and walking down a hill. The figures are positioned diagonally from the top left towards the bottom right. The hill is represented by a series of curved, overlapping shapes that create a sense of depth and movement. The overall tone is light and airy, with a soft gradient background.
